

FOR IMMEDIATE RELEASE**Anderson and Chamberlain to Run Epicor LBM Business*****Management Changes Highlight the Company's Commitment to the Lumber Market***

LIVERMORE, Calif., December 13, 2011 -- Epicor Software Corporation, a global leader in [business software solutions](#) for manufacturing, distribution, retail and services organizations, today announced that it has assigned two industry veterans to lead its business serving the lumber and building materials (LBM) market. Cary Anderson, currently director of the Epicor lumber software development team, will manage LBM operations, which include product development, professional services and support. Bob Chamberlain, formerly of Hope Lumber & Supply, is now running the Epicor LBM sales organization.

Together, Anderson and Chamberlain have over 50 years of industry experience and have dedicated their careers to the success of North American LBM dealers. Anderson was the first to introduce Business Intelligence, Document Management, Dispatch and Delivery, Installed Sales, and, most recently, Business Process Management to the lumber industry. Bob Chamberlain's unique industry perspective was developed through a career that has spanned working as a sales and operations executive with large building materials suppliers, as well as with the software vendors that sell to the LBM market.

"Epicor is committed to the lumber marketplace, and Bob and Cary represent the senior leadership necessary to execute on that commitment," said Paul Salsgiver, executive vice president and general manager for Epicor. "As the leading technology provider for LBM dealers, Epicor is made up of industry leaders and innovators, like Bob and Cary, who are passionate about this market."

About Epicor Software Corporation
