Newly Enhanced Epicor ERP Honored as 2016 Stevie® Award Winner

Stevie Award Winners Will Be Presented with Awards on June 20 in New York

Epicor Software Corporation, a global provider of [industry-specific enterprise software](#) to promote business growth, today announced the [latest version](#) of its [enterprise resource planning](#) (ERP) business software, Epicor ERP, was named a 2016 American Business Awards winner in the *New Product – Project Management Solution* category.

Epicor ERP is a global solution that delivers the choice, flexibility and agility to drive growth and opportunity throughout business without the complexity of legacy technology platforms. A single, end-to-end software solution for business, Epicor ERP is deployed in the cloud or on-premises.

The American Business Awards are the nation's premier business awards program. All organizations operating in the U.S.A. are eligible to submit nominations -- public and private, for-profit and non-profit, large and small. More than 3,400 nominations from organizations of all sizes and in virtually every industry were submitted this year for consideration in a wide range of categories, including Startup of the Year, Executive of the Year, Best New Product or Service of the Year, Marketing Campaign of the Year, among others.

"The judges were extremely impressed with the quality of entries we received this year," said Michael Gallagher, president and founder of the Stevie Awards. "The competition was intense and every organization that has won should be proud."

"We are excited to be named a winner in the 2016 American Business Awards," said Janie West, senior vice president and chief product officer for Epicor. "Epicor ERP is designed to easily support varying roles within an organization from anywhere, at any time, and on any device -- making project management easier than ever before."
