### **Epicor Receives Prestigious Industry Recognition at Asian Manufacturing Awards 2017**

***Awarded “Best ERP Systems Provider” for the fifth consecutive year***

Epicor Software Corporation, a global provider of [industry-specific enterprise software](#) to promote business growth, announced today that it was named “Best ERP Systems Provider” in the [Asian Manufacturing Awards 2017](#), held at the Mandarin Orchard Hotel on 27 July 2017.

Epicor ERP is a global enterprise resource planning (ERP) solution, used by thousands of customers in 150 countries worldwide. Building on the strengths of its cloud-first architecture, Epicor ERP provides powerful capabilities to support its users’ operational excellence, improve visibility, and revenue growth—all factors that are critical to achieving sustained growth in the increasingly competitive and fast-paced global business arena.

This is the fifth year that Epicor has been recognised as the “Best ERP Systems Provider” after accepting the inaugural award in 2012. This industry award recognition is testament to the continued investment made by Epicor in creating business solutions that address the real-world challenges manufacturers in Asia face today, and supporting them as they strive to grow in a challenging global economy.

“We are honoured to be named Best ERP Systems Provider for the fifth consecutive year,” said Vincent Tang, regional vice president, Asia at Epicor Software. “Epicor has enabled Asian manufacturers to realise the importance of gaining access to real-time data and turn it into actionable insights to support business growth. We are on the cusp of Industry 4.0, and Asian manufacturers need the best ERP solutions and technology at their fingertips if they are to remain relevant and competitive.”

Organised by the Manufacturing Group of publications at Contineo Media, the Asian Manufacturing Awards honours manufacturers and service providers that provide the best solutions for control, instrumentation, and automation, addressing today’s engineering and manufacturing challenges.

#### **About Epicor Software Corporation**
