Northeast Tool Rolls Out Epicor ERP for Companywide Cross-Collaboration

Manufacturer Set to Consolidate Disparate Systems and Position Company to Establish Best Practices for Future Growth

Epicor Software Corporation, a global provider of [industry-specific enterprise software](#) to promote business growth, today announced Northeast Tool & Manufacturing Company, Inc. has chosen the award-winning enterprise resource planning (ERP) solution, [Epicor ERP](#), to streamline business processes and improve information sharing across the enterprise.

[Northeast Tool & Manufacturing Company, Inc.](#) has been in business for over fifty years. Based in Matthews, North Carolina, the company provides precision manufacturing and cutting edge solutions for the aerospace and defense as well as energy sectors.

One of the biggest drivers that prompted a search for a new ERP system was the need to seamlessly interact with other systems across the company, in addition to providing dashboards and complete functionality between front office and the shop floor. Additionally, the company began taking on more work in the aerospace and defense industry which required tracking information its legacy system could not produce.

“Epicor ERP allows us to operate and interface our business in a completely flexible, but structured database environment,” said Rusty Arant, chief executive officer, Northeast Tool & Manufacturing Company, Inc. “Each supporting member within the company can operate independently while still within the confines of an inclusive, all-encompassing ERP platform.”

Visibility across the Business

By deploying a modern ERP solution such as Epicor ERP, Northeast Tool has found in Epicor a reliable solution to not only deliver accurate business information to enable sound decision-making across the business, but also as a springboard to establish best practices. The company plans on utilizing the data from Epicor ERP and its connected system and modules to make decisions that lead to utilizing the proper resources, equipment, processes and labor, and align the elements of

“Epicor allows us to operate and interface our business in a completely, flexible but structured database environment. Each supporting member within the company can operate independently however still within the confines of an inclusive, all-encompassing ERP platform.”

continuous improvement. This in turn will enhance process management thus production will improve as well as quality in all products.

“Epicor ERP provides companies a set of tools to extract powerful business data,” said Matt Mullen, senior vice president, portfolio marketing, Epicor Software. “Companies like Northeast Tool have in Epicor a trusted ally to provide accurate information for the soundest decision-making across several business functions.”

“Northeast Tool will now be able to use real time data to make informed business decisions,” Arant concluded. “We will be able to respond quickly to the changing demands within the manufacturing industry with real-time capabilities.”

About Epicor ERP

Ideal to support make-to-order, configure-to-order, and configure-to-stock manufacturing and guided by the needs of today’s users, Epicor ERP is a global enterprise resource planning solution that delivers the choice, flexibility and agility to drive growth and opportunity throughout your business without the complexity of legacy platforms.
