Pentagon Builders Merchant Based in Jersey Selects Epicor BisTrack to Grow Business

Epicor Software Corporation, a global provider of [industry-specific enterprise software](#) to promote business growth, today announced that leading builders merchant [Pentagon](#) has chosen the Epicor® BisTrack™ enterprise resource planning (ERP) solution to support the company's growth plans.

Pentagon was established in 1977, and is Jersey's leading independent, locally owned and managed stockist of building materials and home improvement products catering for architects, designers, builders, developers and homeowners. Pentagon conducted an extensive selection process before choosing the Epicor BisTrack solution and selecting [Netplan](#) as implementation partner, thanks in part to their reputation in Pentagon's buying group Fortis.

Pentagon's managing director Richard Springett commented, "We were looking for an ERP solution that improved our usability experience internally, made us simpler to deal with externally and ultimately help us deliver one of our core objectives to outperform our competitors and deliver outstanding customer service."

"We are delighted that Pentagon has chosen BisTrack as its business growth solution," said Stuart Hall, sales director for Epicor Software in the UK and Ireland. "It further demonstrates the reputation of BisTrack as an award-winning distribution ERP system for builder's merchants that offers all the functionality needed to process simple to complex transactions and support their business growth plans."

About Epicor Software Corporation

Epicor Software Corporation drives business growth. We provide flexible, industry-specific software designed around the needs of our manufacturing, distribution, retail, and service industry customers.
