

FOR IMMEDIATE RELEASE

Epicor Congratulates Ultra Machining Company on 2014 Manufacturing Leadership Award Recognition

Precision Manufacturer Recognized for Workplace Leadership Excellence Leveraging Epicor University

AUSTIN, Texas, April 21, 2014 -- Epicor Software Corporation, a global leader in [business software solutions](#) for manufacturing, distribution, retail and services organizations, today congratulated its customer [Ultra Machining Company](#) (UMC) for being recognized with a 2014 Manufacturing Leadership Award (ML Award) in the Workplace Leadership category for its “ERP Re-implementation” project.

UMC is one of the premiere manufacturers for precision machined parts and assemblies in the aerospace and medical device industries. As the company began to experience rapid growth, UMC implemented the “ERP Re-implementation” project, utilizing the complete suite of training resources offered by Epicor University to ensure all departments understand the full capacity of the company’s Epicor next-generation [enterprise resource planning](#) (ERP) solution.

As an ISO and ASO certified organization, these two governing bodies maintain the way UMC conducts business and require the company to keep a solid database to effectively manage business processes. It was important UMC understand the full potential of Epicor ERP to meet ISO and ASO data requirements.

“Epicor University provided our company with resources and tools to help us realize the greatest benefit from our Epicor ERP software investment,” said Don Tomann, CEO of UMC. “Combining our knowledge with the knowledge of the experts from Epicor University empowered individual employees to learn in the way they learn best.”

Epicor University provides customers with resources and tools to help them realize the greatest benefit from their enterprise software investment. UMC leveraged all aspects of the training available to them through Epicor University including virtual and onsite education sessions. Through Epicor University, UMC is able to focus on specific customers and product cycles to access all of the data in a timely manner. By having access to this real-time data, UMC executive leadership can make better business decisions and operate the company in the most efficient manner.

“We commend the UMC team for their continued strategy and collaboration to understand the power of ERP technology combined with business processes,” said Louise Keppel, vice president, Epicor University worldwide. “Turning data into actionable intelligence to meet their customer demands is crucial to stay one step ahead of the competition.”

About Manufacturing Leadership Awards

The Manufacturing Leadership Awards (ML Awards) honor companies and individuals that are shaping the future of global manufacturing. Award nominees describe their breakthrough projects using the nomination form. Nominations for breakthrough projects are entered into specific categories and evaluated by a panel of expert judges. Seven of the ML Awards categories are for outstanding projects undertaken and completed by a manufacturing company. Four of the categories recognize the achievements of individual manufacturing executives. For more information, visit <http://mlawards.gilcommunity.com/>.

About the Manufacturing Leadership Council

The Manufacturing Leadership Council, Frost & Sullivan, is the world's first member-driven, global business leadership network dedicated to senior executives in the manufacturing industry. The Manufacturing Leadership Council's mission is to help senior executives define and shape a better future for themselves, their organizations, and the industry at large. The Council produces an extensive portfolio of leadership networking, information and professional development products, programs, and services -- including the Manufacturing Executive Website, an online global business network with 5,300 members around the world; the Manufacturing Leadership Council, an invitation-only executive organization of over 100 members; the annual Manufacturing Leadership Summit – Bold Ideas for a Better Future; the Manufacturing Leadership Awards, celebrating industry achievement; and the thought-leading Manufacturing Leadership Journal. For more information, visit www.MLCouncil.com.
