- ▶ Replacement plan minimizes disruption and provides peace of mind
- ▶ Stand-Alone functionality gives flexibility to offer credit/debit card payment processing
- ▶ Enjoy significant, measurable savings on fees—savings that go straight to your bottom line
- ▶ Simplify the entire process of accepting payment cards
- ▶ EMV capable

## Flexible payment processing solution

With customers expecting fast-paced checkout and a variety of payment options, offering credit and debit card processing is a fact of life. But finding the right solution is complicated. With the wrong payment processor, new fees arrive all too frequently, monthly statements change format every month, and security and compliance are always a concern.

Then take into account that traditional PC-dependent processing programs don't work for ALL businesses. For instance, small businesses still using cash registers or retailers in need of a quick pay-and-go station for sidewalk or outdoor sales might be looking instead for a non-PC-driven solution. Others are looking for a backup card reader with both Internet and dial-up capabilities so that in case their Internet connection is severed, cards can still be processed.

Epicor Stand-Alone Terminal offers retailers the flexibility to process debit/credit transactions in a way that fits their business best. This robust and secure payment system is a card reader with built-in printer and PIN pad that enables minimal start-up time and unparalleled speed-to-value. Stand-Alone Terminal operates on either an Internet or backup dial-up connection, allowing you to process transactions as necessary.

What's more, each Stand-Alone Terminal is protected by an advanced replacement plan. Epicor guarantees next business day equipment repair or replacement. Regardless of the cause (accident, spill, or equipment malfunction), you can rest assured that your equipment will be repaired or replaced quickly with little disruption to your business operations.

With Stand-Alone Terminal, retailers can perform in-person debit or credit transactions. Concise screen instructions make it easy for new employees to be trained and use the Stand-Alone Terminal. Clear diagnostics help retailers quickly identify and resolve issues. And the Stand-Alone Terminal is PCI-compliant, ensuring that your customers' data is protected.

## Advanced security safeguards your customer data and yours

- ▶ Integrated PCI PTS-approved PIN entry capability
- ▶ Unparalleled security and high-powered protection against any unauthorized loading of applications
- ▶ Fully compatible with all standard point-to-point encryption schemas
- ▶ Safe, secure, and fully certified solution

## Intuitive card payment terminal makes training easy and keeps lines moving

- ▶ Proprietary IP diagnostics application clearly communicates when an error has occurred and—more importantly—how to fix it
- ▶ SureLoad® clamshell printer design allows drop-in loading of thermal paper rolls in just seconds
- ▶ Bright, white backlit display delivers sharper images for maximum visibility
- ▶ ADA-style keypad layout is easy-to-use and has programmable navigation buttons

## High-performance processing delivers on speed of transactions

- ▶ 24MB of total memory and a powerful ARM9 processor enables fast transactions and the ability to support multiple applications
- ▶ Powerful ARM9 32-bit processor delivers 4x the processing power of those used in competitive models
- ▶ Integrated 10/100 Base-T Ethernet connection with the convenience of a V.34 modem provide a fast, reliable dial back-up for improved business continuity

## Essential capabilities provide flexibility to run your business your way

- ▶ Graphics-capable thermal printer prints logos, bar codes, and QR codes so you can develop a professional brand
- ▶ Process mail orders and increase opportunity for sales
- ▶ Address Verification Service ensures added security

## Advanced replacement plan reduces worry and downtime

- ▶ Full repair/replacement by next business day saves time and money
- ▶ Toll-free support available to help you when you need it
- ▶ Protects your business from the start
- ▶ Beyond warranty equipment coverage relieves you from shouldering cost of replacement
- ▶ Keep sales on track with next business day equipment replacement
- ▶ Application download or key injection included
- ▶ Return shipping of defective product included

## Card types accepted

- ▶ Visa, MasterCard, American Express, Discover, JCB, and Debit Cards
