

# RF Warehouse Management

## Product

Epicor® Eclipse™

## Benefits

- ▶ Know your warehouse's status at any given moment through real-time data capture
- ▶ Reduce inventory variances and ensure a higher order fill rate
- ▶ Reduce the number of lost sales and returns with precise inventory accuracy
- ▶ Improve warehouse space management through the use of bar code labeling
- ▶ Reduce receiving errors during the receiving-verify and put-away processes
- ▶ Reduce potential shipping errors during the picking and staging processes
- ▶ Eliminate facility shutdown during physical inventory

Epicor Eclipse RF Warehouse Management is a fully integrated real-time warehouse management system that improves warehouse productivity and inventory accuracy. Through the use of radio frequency (RF) data collection devices, RF Warehouse Management provides up-to-the-minute transmission of warehouse activity to your Eclipse solution. Use RF Warehouse Management to gain real-time control over inventory. This real-time data transmission gives the warehouse management system the ability to verify receiving, put-away, and picking activity; to set automatic replenishment and product movement guidelines; and to catch inventory discrepancies and perform cycle counts immediately.

## Product Features

### Zone maintenance and location maintenance

- ▶ Segment your warehouse locations into different areas to track locations and make receiving and picking more efficient
- ▶ View product locations to make well-informed decisions about product reallocation and movement

### Bar code labeling

- ▶ Use bar code locations, products, totes, and lots to keep track of product movement

### Receiving and picking

- ▶ Verify that the correct product and quantities are received and put-away in the correct locations
- ▶ Ensure that the correct product and quantity is picked from the correct location, and in the most efficient picking sequence

### Cycle counting and replenishment

- ▶ Identify and resolve inventory discrepancies through immediate and daily counting
- ▶ Set automatic replenishment guidelines based on minimum/maximum quantities

### Warehouse in process queues

- ▶ Check the status of and control all activity in your warehouse

## About Epicor

Epicor Software Corporation drives business growth. We provide flexible, industry-specific software that is designed around the needs of our manufacturing, distribution, retail, and service industry customers. More than 40 years of experience with our customers' unique business processes and operational requirements is built into every solution—in the cloud, hosted, or on premises. With a deep understanding of your industry, Epicor solutions spur growth while managing complexity. The result is powerful solutions that free your resources so you can grow your business.
